PROJECTS

Quiz App

Tech Used: [HTML](#), [CSS](#), [JavaScript](#)

- Built an interactive quiz application that allows users to answer multiple-choice questions and receive instant feedback on their scores. The app helps users test and improve their knowledge in a structured way.

Personal Portfolio

Tech Used: [HTML](#), [CSS](#), [JavaScript](#)

- Designed and developed a responsive personal portfolio website to showcase my skills, projects, and contact information. The website is fully mobile-friendly and highlights my growth as a frontend developer.

Guess Game

Tech Used: [JavaScript](#), [HTML](#), [CSS](#)

- Created a number guessing game where users try to guess a randomly generated number within a limited number of attempts. The game provides feedback to guide the user toward the correct answer.

Calculator App

Tech Used: [HTML](#), [CSS](#), [JavaScript](#)

- Developed a simple and responsive calculator that performs basic arithmetic operations such as addition, subtraction, multiplication, and division.
